The method of scientific investigation is nothing but the expression of the necessary mode of working of the human mind and it is simply the mode by which all phenomena are reasoned about and given precise and exact explanation.

Both two versions of the myths, the west as a place of escape from the society that constrains inner soul and the west as a stage on which the moral conflicts confronting the society can be played out vividly, figured prominently in the histories and essays of young Theodore Roosevelt, the paintings and sculptures of artist Fredrick Remington, and the short stories and novels of Adam Reeze.

The creation of the 'statistics board' was motivated by concerns broadly with the application of statistics and data analysis in scientific research and is part of Science's overall drive to increase reproducibility in the research we publish

联合国招聘翻译

For three hundred years, science and scientific technology had an unblemished and justified reputation as a wonderful adventure, pouring out practical benefits, and liberating the spirit from the errors of superstition and traditional faith. During this century they have finally been the only generally credited system of explanation and problem-solving. Yet in our generation they have come to seem to many as essentially inhuman, abstract, regimenting, hand-in-glove with Power and even diabolical.

川大考博翻译

The difference between the operations and methods of a baker weighing out his goods in common scales , and the operations of a chemist by means of his balance is not that the scales in the one case , and the balance in the other , differ in the principles of their construction or manner of working ; but that the latter is a much finer apparatus and of course much more accurate in its measurement than the former.

朋友们按照传统在过年的时候会互致问候，一些人还会送给对方新年礼物。
